

Hanzla Munir

Full Stack React Native Developer

I'm Hanzla Munir, a skilled React Native and MERN Stack developer with over 2 years of experience in mobile app development. I have a proven track record of successfully delivering projects for software houses as well as freelancing clients. My expertise includes building scalable and reusable components, creating seamless animations, implementing responsive designs, and utilizing npm packages for customization and optimization. With strong proficiency in API integration, I ensure smooth and efficient data handling. I am committed to continuous learning, quickly adapting to project requirements, and delivering high-quality, innovative solutions that meet client needs.

Experience - 2 years

Full Stack React Native Developer

ZYSOFTEC - Remote, Pakistan | Jun 2024 - Sep 2024

I worked remotely as a Full Stack React Native Developer for three months, successfully delivering multiple projects with a focus on seamless functionality and efficiency. In this role, I managed both frontend and backend tasks, ensuring high-quality solutions and on-time delivery across all projects.

Sr. Mobile Application Developer

FAROS TRACKING - Multan, Pakistan | Feb 2024 - Jun 2024

At Faros Tracking, I worked as a Senior React Native Developer on a car tracking app that displays real-time vehicle locations with animated cars on Google Maps. I developed features for tracking live movement, viewing route history, and ensuring accurate, smooth animations on the map. This role honed my skills in real-time data handling, map integration, and optimized animations for a responsive, user-friendly tracking experience.

Sr. Mobile Application Developer

XPERTSPOT SYSTEMS - Rahim Yar Khan, Pakistan | Jun 2023 - Feb 2024

As a Senior Mobile Application Developer at XpertSpot Systems, I led the development of complex, high-demand apps like Food Panda. I created scalable solutions for real-time order tracking, payment integration, and user-friendly interfaces to support thousands of users. This role sharpened my skills in performance optimization, API integration, and backend management, ensuring fast, reliable, and seamless user experience.

Associate Software Engineer

NGS TECHNOLOGIES - Sadiqabad, Pakistan | May 2022 - May 2023

I worked as an Associate Software Engineer at NGS Technologies in Sadiqabad, contributing to app and web development, testing, and project support. My role focused on front-end development, rigorous app testing, and ensuring quality releases. This experience strengthened my skills in debugging, quality assurance, and responsive design, all while enhancing performance across web and mobile platforms.

React Native Developer

LIMETECHNOLOGIES - Rahim Yar Khan, Pakistan | Feb 2022 - Apr 2022

At Lime Technologies, I worked as a React Native developer on BanoLive, a live streaming app. I built and optimized features for real-time streaming, interactive chat, and low-latency performance, creating a smooth, engaging experience for thousands of users. My role sharpened my skills in video integration, state management, and performance tuning for high-demand streaming environments.

Projects

LiveTrack

Faros Tracking

<https://play.google.com/store/apps/details?id=com.livettracks>

Tools: React Native

LiveTrack is a real-time vehicle tracking application that allows users to monitor the location of their vehicles, view historical data, and generate PDF reports of vehicle activity.

MFH Super App (Customer, Vendor, Rider)

Xperspot Systems

<https://play.google.com/store/apps/details?id=com.mfhsuperapp>

Tools: React Native

The Mfh Super App CUSTOMER is a comprehensive food delivery application that offers users a seamless and convenient way to order food from nearby restaurants and track their orders in real-time.

SoulMatch

Zysoftec

Tools: React Native

Soulmatch is a Muslim marriage app designed to help users find meaningful connections. It offers personalized matchmaking ensuring a safe and reliable platform.

Food App

Zysoftec

Tools: React Native

Food App is a convenient platform that enables users to explore a variety of restaurants, place food orders, and track deliveries, offering an easy and efficient food ordering experience.

TeleMedicine

Freelance

Tools: React Native

Telemedicine is a healthcare service that enables patients to consult with medical professionals remotely, typically through video, audio, or chat communication channels.

MeatmeHalfway (Restaurant, Customer)

Zysoftec

Tools: React Native

MeatmeHalfway Restaurant is an app designed for restaurant owners to manage orders, track deliveries, and provide customers with fresh and high-quality meat products, ensuring a seamless service experience. MeatmeHalfway Supplier is an app created for suppliers to manage inventory, fulfill restaurant orders, and ensure a consistent and reliable supply of fresh meat products to restaurant partners.

Food Rescue

Freelance

Tools: React Native

Food Rescue is an app focused on reducing food waste by connecting restaurants, suppliers, and consumers to redistribute surplus food to those in need, promoting sustainability and

community support.

Fastfone

NGS Technologies

Tools: React Native

Fastfone is a mobile sales and purchase app where users can buy and sell phones with ease. It includes features like detailed product listings, secure payment options, and real-time chat for seamless transactions. The app is designed to make mobile trading fast, reliable, and user-friendly.

Defeat Depression

Freelace

Tools: React Native

Defeat Depression is a mental health app focused on helping users manage and overcome depression. It provides resources like guided exercises, mood tracking, and self-help tools to support users in their mental wellness journey. The app offers features such as personalized coping strategies, daily check-ins, and access to a supportive community, empowering users to take control of their mental health with confidence and ease.

SkillShare

FYP

Tools: React Native

SkillShare is an innovative platform designed to connect individuals with diverse skills and those seeking to learn or hire those skills. The platform allows users to create profiles showcasing their expertise, enabling them to offer tutorials, workshops, or services across various fields such as art, technology, music, and more.

PlayTennisMarin

NGS Technologies

<https://play.google.com/store/apps/details?id=com.playtennismarin>
